Electronic Media: An Introduction

Synopsis

Electronic Media: An Introduction provides students the essentials for interacting with electronic media whether they plan to become media producers or shrewd media consumers. The text discusses the most current media forms and the functions of those forms as they relate to advertising, promotional, regulatory, ethical and global issues. Students will explore types of media careers and learn how to obtain those jobs by developing networking and interviewing skills and by preparing strong application materials.

Lynne Schafer Gross is presently a Professor in the Department of Radio-TV-Film at California State University, Fullerton. She has written ten other textbooks and hundreds of magazine articles. In 1999 she was the recipient of the Frank Stanton Award for Distinguished Contribution to Electronic Media Education and in 1997 she received the Distinguished Education Service Award from the Broadcast Education Association. She is a past governor of the Academy of Television Arts and Sciences and has also chaired that organization's Library Committee and Student Activities Committee. As Past President of the Broadcast Education Association she increased membership 24% and funding 59%. Professionally, she is currently Associate Producer for the video series "Journeys Below the Line" and in the past she was Director of Programming for Valley Cable TV and the producer of numerous radio and TV programs for public, commercial, and cable outlets. Her teaching and consulting have taken her to many countries including Malaysia, Swaziland,

Estonia, Australia, Guyana, and Russia. Her doctorate is from UCLA.

I'm including pics as a CYA, just to show that there was some damage on the books when i received them. Not that it matters for the price of a rental, all in all it's great, that's why i gave it 5 stars. I just wanted to make sure that i had pictures of some of the areas, especially what appears to be some mild water damage (pages are rippled along the bottom). Nothing severe, but i'd hate to get dinged if they thought i did that.

I rented it, and it's in great condition! If your course allows you to rent a textbook I highly recommend doing so, it's in great condition and you save money!

This book came in quickly and was perfect. The college bookstore was offering a badly used version for a few dollars less than a brand new textbook price and I received this in time for my second assignment although I ordered when the semister had started. Thanks!

I loved the textbook the only problem is the time one must wait to get the textbook. Other than that the textbook has been very helpful. I thought about not getting the textbook because I thought I would not need it. Did not want to buy it because it was very expensive. Thanks to I rented it for almost half the price!

Good book for class work

The content is fine however the book was damaged when I received it. Front cover and first two pages had a very long cut on them.

It's is an expensive book but its got everything there. Ugh it's new and costs a lot and I'm a poor college boy

Book cost too much money I don't think it was worth renting only reason I paid for it is because of my class instructor required the class to read it.
