Apartment Aquaponics

Synopsis

Step by Step Plans to build your very own Apartment Aquaponics System. In this short book I removed all the fluff about why Aquaponics is great and everyone should be doing it to grow their own organic lettuce & vegetables at home. You'll be getting step by step plans to build a simple aquaponics system you can use in your apartment or on a balcony. This is a great starter system to build to learn the basics and grow some stuff while you're at it.
