Customer Reviews

I love receiving new crochet books and this one will not disappoint you if you are an `Ami' monster fan. A compact hard back book containing hints and tips plus 20 patterns for the cutest little critters you ever did see. The tiny monster like creatures are similar to the Japanese Manga designs but in plushie form. Even the author's name is fitting it sounds like a fairy's name, gosh Sabrina I wish I had a name like yours! Concise instructions and exact info on where to sew on the tiny pieces at the construction stage. I think this is very important with this type of crochet, or the character does not come through. 112 pages of fun, clear and concise photography as well as a crash course with illustrations on the stitches used, mainly dc/sc. The book and indeed any creature you make from it would be a wonderful gift for a crochet fanatic, from beginner to the experienced `hooker' aka yarn addict The book is published by Searchpress, as are most of my fave crochet books.
