Under The Spell Of Succulents: A Sampler Of The Diversity Of Succulents In Cultivation

Synopsis

Under the Spell of Succulents is a 244 page, 800 color photo introduction into the world of cultivated succulents. Succulents seem to have earned their own niche in the world of cultivated plants, separating themselves out from other ornamentals by virtue of the diversity of their fleshy architecture and colors. As an added benefit, they are also among the most water-wise plants for Mediterranean climates. As succulents have become more prominent in the nursery trade, most casual gardeners are beginning to realize the succulent doesn't necessarily mean cactus although cacti are succulents. This book introduces readers to this fascinating botanical subculture, from the soft pastel petals of kalanchos to the beautiful but intimidating spines of cacti, and makes clear why so many fall Under the Spell of Succulents. Published by Jeff Moore, and distributed by Sunbelt Publications

Book Information

Paperback: 244 pages

Publisher: Sunbelt Publications (June 1, 2014)

Customer Reviews

Jeff Moore has owned and operated a retail succulent nursery, Solana Succulents in Solana Beach, since 1992. Succulents became his hobby 7 or 8 years prior to opening the nursery. He sold rare plants and dish gardens at street fairs to test the market. Prior to opening Solana Succulents, Jeff worked in the mortgage business. He lives in Solana Beach with his wife Lori, who is clinical dietician at Rady Children's Hospital, and has two sons currently attending Cal Poly SLO.

Absolutely Awesome book, jaw dropping photos, 2nd only to Debra lee Baldwin's first book. Get his

new book on Aloes and Agaves also. You will not be disappointed. Especially liked undersea themed succulent landscapes. Can't wait for the third book.....!!!!!! - Bill in Florida
