Includes over 400 items with full color photos and expanded text describing Marx's selection of diesel locomotive prototypes. Includes diesels, scale cars, seven-inch cars, plastic cars, accessories, HO trains, train toys, paper and sets. 136 pages.

If you are a collector or operator of tin toy trains, or just interested in the history of this aspect of American tin toys; then this is the book for you. Filled with color photos of the subject it continues the fine and detailed coverage provided in volume 1.

Excellent shape

I tried to buy this book for a long time. Even at train shows, but with no luck, at this price.
