The Scenery Manual

Synopsis

The Scenery Manual is the complete Woodland Scenics guide to creating life-like terrain, landscaping and scenic details for your model railroad, military diorama or architectural model. For the beginner or for the advanced hobbyist this book describes the products, the tools, and the foolproof methods used in creating natural settings in scale. No detail has been overlooked. Contains all the proven advice and inside tips for achieving craftsman quality results the very first time. But most important The Scenery Manual offers the confidence necessary to begin any miniature modeling project and finish it with pride.

Customer Reviews

Woodland Scenics is the leader in the manufacture of all scenery products used in model railroading. They are the experts and The Scenery Manual is a how to book designed to teach everyone how to have great looking layouts and dioramas the Woodland Scenics Way.

While specific to railroad dioramas it still works for other types. The railroad folks are the Masters - at least in America.

Must have in your library if your building scenery. So many great tips and the binding is great for getting stuck on a certain page, doesn't hurt your book.

ALOT OF REALLY GOOD IDEAS. GOT IT OUT OF LOCAL LIBRARY AND DOG ATE COVER.

BOUGHT THIS AS REPLACEMENT

this was a gift for my husband and he says it is very useful for helping him build his train layouts.

Goud product

Just getting back into Model Railroading after a 30 year respite. The Scenery Manual will be helpful to me to enhance the experience.

updated version on an older issue, still very good information for every one to try easy to read and easy steps to follow

Well received.
