Insignia Of The Waffen-SS: Cuff Titles, Collar Tabs, Shoulder Boards & Badges

Synopsis

All of the uniform-specific insignia used by the Waffen-SS in World War II are presented in this concise, all-color book. Included are sleeve and cap eagles in their various versions, collar tabs, sleeve shields, and cuff titles, as well as shoulder boards and straps, and rank insignia. Using nearly 300 color photographs, this book shows the scope in insignia the Waffen-SS achieved by war's end, and how far it deviated from Himmler's earlier principles as a result of the steadily deteriorating war situation. Some of the rarest insignia shown are those from Waffen-SS units using Armenian, Bosnian, Indian, and Georgian troops. Also included are numerous war-era photos that document the wearing of the various insignia shown.

Not really a reference book. More like a display book. Not worth the price\$\$/

some fakes in the book, but okay if you already know your stuff

great reference book

Excellent reference

This is a very small and slim volume. The quality you'd expect from schiffer publishing is certainly here, the pictures are high quality. I feel however that this book would have benefited from a larger format.
