Customer Reviews

I had hgh hopes for this book. The sample chapter that they allow you to read before buying caught my interest. But when the book arrived I was surprised at the small size and double-spaced text. I read the book during my one hour lunch break hoping to find something new and beneficial to my own business. There was little of that to be had. Hill's business tips are ones that apply to most any business type. One positive comment I can make s that I feel better about my pricing strategy. I expected more but received less. If you don't have a clue about running a business, this book is for you.

This is a must have if you are thinking if you are thinking of opening your own process service business!! Explains everything from the ground up, highly recommend!

Ok resource

The info is spot on. Now go kill it

OK

informative

Good book

This is a very informative book on the subject. It has a lot of interesting detail on how to market clients. Easy to read, too!
