The Carta Bible Atlas, Fifth Edition Revised And Expanded

Synopsis

The Carta Bible Atlas (previously titled The Macmillan Bible Atlas) has been the premier Bible atlas of choice for students, scholars, and clergy for decades. Carta, Jerusalem, is pleased to present a new, corrected, and expanded fifth edition of this atlas that includes detailed maps, analytical notes relating biblical events to geographical locations, military campaigns, travel routes, archaeological highlights, a place index, a name index, and 40 new maps.

Customer Reviews

I haven't been through the whole book carefully so I can't speak to the rest of the book. My seminary professor highly recommended it. But one map in particular has some significant mistakes. Map 277 of Paul's Second Missionary Journey is loaded with problems. I think that the third missionary journey graphic got mixed in (or they put the third journey map where the second should be?). It has Paul traveling from Philippi to Troas which was true of the third but opposite in the second. It has Eutychus saved in Troas, again a third journey event. It doesn't have Paul going to Athens.

I study Torah on a weekly basis. Whenever an area is mentioned, I use this atlas to add to my knowledge of its location.

This was a suggested book for one of my classes in seminary. I almost didn't buy it but I'm REALLY glad I did...especially for the usage of the OT! While studying 1 and 2 Samuel it was immensely

helpful to visualize the movements. There are several maps on each page with directional arrows for almost every event in David's life. This was my "second bible" to my Bible reading...I was taken to a new level with my understanding of OT history just by being able to visualize the battles and travels.

This is an excellent Atlas for Bible Students. There are numerous well drawn and appropriate maps accompanied by an index of geographical and human references. This Atlas is a well updated version of what was originally The MacMillan Bible Atlas that I have found in our local library. It is an Atlas that is well worth buying and compares favorably as the best of the lot of available Atlases available. The book shows years and years of scholarly research strengthened by many photographs and illustrations. I can't say enough about this Atlas, it is well printed and very very thorough. I recommend it to anyone who is interested in The Holy Bible whether you are a Jew, a Christian, this Historical Atlas of The Holy Lands should be in your personal library.

Great book that helps map out the Biblical lands and historic places. Very good

Great historical atlas. Fully covers to Old Testament (Tanakh) era,

exact locations in graph index not given made it time consuming to find. Colour that marks borders,countries and seas etc., needs to be included.

More than just maps.
