Shipping Weight: 2.4 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 47 customer reviews

Best Sellers Rank: #2,704 in Books (See Top 100 in Books) #120 in Books > Humor & Entertainment > Humor

## Customer Reviews

Cute idea for a bday or anniversary card as it comes with an envelope and is not much more expensive than a traditional card. We had a lot of fun going through each page, and our parents loved it.

It says is 24pg booklet greeting card, but it is really just a booklet the size of a greeting card. I am a bit disappointed and feel the title of the product is misleading. For what it is though, it is cute to play at the table for someone's birthday and it was cheap enough, that I do not feel ripped off.

This was such a good idea to have on the tables For my mom's 60th birthday .Everyone was flipping through them looking at how much things cost doing that time and they just had a good time by the end of the party I did not walk away with any of the booklets because everyone wanted to keep them

This is super tiny, flimsy and lame. Not at all what I expected. Content is good, but you probably can find it all yourself online, print and bind it more nicely. Got this as a gift for my dad's 60th.

This is not really a book (as described ) but more like a pamphlet. Not worth the money.

Bought a few of these. They're like booklets - great quality. Fast shipping and excellent customer service.

This was a gift that took the receiver back in time to the year he was born with this great information.

Very cool extra special alternative to a birthday card, especially for milestone birthdays.
