Site Planning & Design ARE Mock Exam (SPD Of Architect Registration Exam): ARE Overview, Exam Prep Tips, Multiple-Choice Questions And Graphic ... And Explanations (ARE Mock Exam Series)

Synopsis

A Practical Guide & Mock Exam for the Site Planning & Design (SPD) Division of the ARE !Â Every July, NCARB begins to recreate the Architect Registration Examination (ARE) questions based on a new guide and scope. We always incorporate this latest information into our books.Â To become a licensed architect, you need to have a proper combination of education and/or experience, meet your Board of Architecture's special requirements, and pass all seven divisions of ARE. Â This book provides an ARE exam overview, suggested reference and resource links, exam prep and exam taking techniques, tips and guides, and a realistic and complete mock exam with solutions and explanations for the Site Planning & Design (SPD) Division of the ARE. More specifically this book covers the following subjects: 1. ARE, IDP, and Education Requirements 2. ARE Exam Content, Format, and Prep Strategies 3. Principles 4. Codes and Regulations 5. Environmental, Social & Economic Issues 6. Materials & Technology 7. Project & Practice Management 8. Site Grading 9. Site Design 10. Four Graphic Vignettes with Step-By-Step Solutions Using the NCARB Practice Program Software 11. Instructions on Installing Alternate dwg Files for Use with NCARB Software 12. Instructions on Saving and Installing Various Solution Files for Use with NCARB SoftwareÂ The mock exam includes 65 challenging questions of the same difficulty level and format as the real exam (multiple-choice, check-all-that-apply, and fill-in-the-blank), and four graphic vignette solutions. This book will help you pass the SPD division of the ARE and become a licensed architect! Can you study and pass the ARE Site Planning & Design (SPD) Exam in 2 weeks? The answer is yes IF you study the right materials: If you have ZERO experience but read the right materials, you can pass with 2 weeks of prep. If you study our book, "Site Planning & Design ARE Mock Exam," you have an excellent chance of studying and passing the ARE Site Planning & Design (SPD) Exam in 2 weeks. We have added many tips and tricks that WILL help you pass the exam on your first try. Our goal is to take a very complicated subject and make it simple. "Site Planning & Design ARE Mock Exam" will save you time and money and help you pass the exam on the first try! ARE Mock Exam series by ArchiteG, Inc. Time and effort is the most valuable asset of a candidate. How to cherish and effectively use your limited time and effort is the key of passing any exam. That is why we publish the ARE Mock Exam series to help you to study and pass the ARE exams in the shortest time possible. We have done the hard work so that you can save time and money. We do not want to make you work harder than you have to. Do not force yourself to memorize many numbers. Read through the numbers a few times, and you should have a very good impression of them. You need to make the judgment call: If you miss a few numbers, you can still pass the exam, but if you spend too much time drilling these numbers, you may miss the big pictures and fail the exam. The official NCARB sample MC questions have no explanations, and the official NCARB sample vignettes have no step-by-step solutions. The existing ARE practice questions or exams by others are either way too easy or way over-killed. They do NOT match the real ARE exams at all. We have done very comprehensive research on the official NCARB guides, many related websites, reference materials, and other available ARE exam prep materials. We match our mock exams vignettes questions as close as possible to the NCARB samples and the real ARE exams instead. Some readers had failed an ARE exam two or three times before, and they eventually passed the exam with our help. All our books include a step-by-step solution to each of the NCARB sample vignette with screenshots and related NCARB software commands, a complete set of MC questions (except for the SD ARE mock exam) and vignettes matching the real ARE exams, including number of questions, format, type of questions, etc. We also include detailed answers and explanations to our MC questions, and a step-by-step solution to each of the mock vignettes with screenshots and related NCARB software commands. Our DWG files for our mock exam vignettes can also be installed and used with the NCARB software. There is some extra

information on ARE overviews and exam-taking tips in Chapter One. This is based on NCARB AND other valuable sources. This is a bonus feature we included in each book because we want our readers to be able to buy our ARE mock exam books together or individually. We want you to find all necessary ARE exam information and resources at one place and through our books. Â All our books are available at GreenExamEducation.com Check out FREE tips and info for all ARE Exams at GeeForum.com, you can post jpeg files of your vignettes or your questions for other users' review.

Gang Chen holds a master's degree from the School of Architecture, University of Southern California (USC), Los Angeles, and a bachelor's degree from the School of Architecture, South China University of Technology. He has more than 20 years of professional experience. Many of the projects he was in charge of or participated in have been published extensively in Architecture, Architectural Record, The Los Angeles Times, The Orange County Register, and more. He has worked on a variety of unusual projects, including well-known, large-scale healthcare and hospitality projects with over one billion dollars in construction costs, award-winning school designs, highly-acclaimed urban design and streetscape projects, multifamily housing, high-end custom homes, and regional and neighborhood shopping centers.Â Â Gang Chen is a LEEDÂ AP BD+C and a licensed architect in California. He is also the internationally acclaimed author of other fascinating books, including Building Construction, Planting Design Illustrated, the ARE Mock Exam series, and the LEED Exam Guides series, which includes one guidebook for each of the LEED exams. This book could be done in half the amount of pages. There is tons of unnecessary info in very large print at the beginning about the ARE and IDP in general. The first links to recommended readings don't work, after I went to the trouble to write down the long links. VERY annoying!! If they're going to constantly use links as resources to explain something then this book should be digital, end of story. For almost every multiple choice question's answer was another typed out link to a website for an explanation to the answer. How lazy are these publishers?? Seriously?!! I have to type in a mile long website address (which probably won't work) to find an explanation to the answers. Or if they didn't use a link to explain things they repeated "A" is correct, "B, C, D" are incorrect..... well yes Sherlock! I imagine if A is correct B,C,D are wrong. Things weren't explained clearly at all. I buy a book like this to have answers explained to me in a way to teach me, not to send me on a goose chase to find an answer or just repeat the obvious. Will not be purchasing or buying from this

publisher again. Horribly disappointed!

This is a great SUPPLEMENT to your study material for the SPD exam. In addition to this book, I also used Kaplan, Ballast, and other online material I could get my hand on since this book alone is definitely is not enough to help you pass the exam. However, like other reviewers said, the price is a little high for the amount of content that's in it. Also beware, the Site Design Vignette Solution for the NCARB practice program is INCORRECT. They omitted one key requirement in the site design program: "2) The Restaurant and the Office Tower shall be at least 210 ft apart." As a result, the vignette solution in this book is NOT correct, and by omitting that key element, it would most likely be a failing solution. I used the NCARB study guide to guide me to the correct solution. So for that reason, two stars. If Gang Chen corrected that issue then maybe I would give this 4 stars.

I bought this guide as a study supplement to my SPD exam. And it was helpful in that 1) it offers information not mentioned in the Kaplan and Ballast guides, 2) multiple choice mock exam of 65 questions, 3) clear step by step instruction on the graphic vignettes, 4) additional reading recommendation list, 5) skill in taking this exam. For SPD, I read Kaplan, flash cards, Ballast, Jenny's Notes, and Gang Chen's book. And I passed it. This key is that read, read, read and expose all pertinent concepts/ terminology to this exam. Gang Chen's book adds to this bunch of knowledge that I needed to pass. Granted the first chapter on ARE guidelines is a bit drawn out and repetitive as we all know these guidelines, time frame and number of ARE. Hence 4 stars from me.

Very disappointing, some of questions are straight out of the NCARB guide. No explanation as to why the correct answer is correct. All what it tells is answer a is correct and answer b,c,d are incorrect. Most of the questions are easy and basic.

Gang Chen does a great job every time. I have purchased many of his books to help me study for the ARE. He does a very fantastic job of tricking you with how he words the questions and teaching you to SLOW DOWN when you read the practice questions. These books are well written and I highly recommend Gang Chen to everyone!

Great Resource! I am a big fan of the Gang Chen series and would recommend it to anyone who asks. I passed all three exams I have taken the first time using this series of books along with other resources.

Gave me confidence on the test prep phase. Had a good variety of questions, different from kaplan and ballast reviews. Don't expect it to have a lot of readings on the book, but it has a lot of website references that help broaden your study focus. passed the test!

If it was \$20 I would have given it a 2.5. It is simply written but a lot of it is fluff that is in each of the author's series that just add to printing costs. Reading the NCARB study outline and looking up concepts online will get you there faster and save you money. Graphics are poorly done and in black and white. NCARB's example is easier to read. For the price it was not worth it.
