## Customer Reviews

Ok if you just want skulls, all of five stars books look likeThey were just thrown together to make money. One book the pagesWere printed on the wrong side. The skulls were hap hazardly drawn.I have been coloring in adult coloring books since 1993.If they would have been in a store would not have purchased them.

Worst purchase ever! What a disappointment, 7 pages of Skeleton Parts, What the heck is that about???? Sugar Skulls, From the picture on the front of the cover one would think it would have sugar skulls, yeah like 6 of them! Seriously this is why you cannot see what is in the book, because no one would buy them! What a rip off! I would not waste my gel Ink on these pictures!

This sugar skull book is awesome just remember to put a blank piece of paper behind the page u are coloring so the ink if u use pens so the ink won't get on the next drawing. remember to only get books that have only one drawing on them so u can do this .I know that pink ink has drawings on both. Sides not good for ink .have fun marie

Loved it thank you !!

Beautiful patterns. A blast to color.

Love, Great fun!

Only about 7 actual pictures of skulls, the rest are mandala type pictures. Many of the pictures seem to be of poor quality (very thick lines, don't look very good). One of the skulls was about 2-3 inches big and just a plain outline of a skull. I would not purchase this book again.

It is very nice coloring book. However, it is more for a child than an adult. There is no challenge, just pretty pictures.
