Loom Knitting A Tiny Doll

Loom Knitting A Tiny Doll

 by Denise M Canela

Synopsis

This little eBook contains 2 patterns for Tiny Dolls as well as a link for a Step by Step Video Tutorial that will instruct you from beginning to end. All you need is a 24-peg loom, a hook, some scrap yarn, a punch of giggles and a little love to get this project done. Caution: Only the finished product has been pictured for this pattern. It does not contain step by step pictures of the project. This is because I believe a video is of greater value.

Customer Reviews

These cute little guys and the comfort dolls also by Denise M Canela are the reason I haven't gotten very little of anything else done in my life. (Sorry, this is a bit of a repeat from the review for the comfort dolls) This is November! That means NaNoWriMo or National Novel Writing Month. By now I should be almost finished with my novel for this year. But I'm only a third of the way into it. These dolls are so much fun! And I keep thinking about the recipients, be they tiny little kids or adults who just need comfort, and I hope these little guys will do the trick. In case you're curious as to my little

guys: See my projects on Ravelry (Darravels) these are just a few, I'll be adding more as I finish up. I seem to have several projects going at the same time: a hat and two or three dolls. I try to make a little kid hat with each of the dolls I don't know if they're going to end up that way but it seems to me a nice thing to give the kid who might get the doll a little hat or maybe big sibling gets the doll or hat, or maybe they go to both to a newborn baby or something. By having the dolls and the hats in different stages, my hands don't get tired doing the same thing over and over. And I'm not fond of sewing. But so happy with the results when I'm finished! About the book, I read this and the comfort doll book and I couldn't seem to get it right just by following the book. Luckily, Denise has videos attached in YouTube that you can watch. I watch them over and over and finally took the book, made notes from the book so that I'd have one piece of paper to look at and wouldn't have to turn on something electronic just to recall the steps and how many stitches. And now I think I'm at the point where I don't need to look at anything to remember how to make them. I don't think I can blame the book. I blame me. I just have a hard time with written instructions and I do so much better when somebody shows me how to do it. So may I suggest that you get the books, read through, watch the YouTube's, and enjoy making the dolls! Thank you, Denise M Canela, for all your books and instructions to making fun things for charity.

It would be better if all the directions were in the book, to be supplemented by video. But that glitch is overcome by being able to make these cute little dolls.

Really fun to make
