Jonathan North is a military historian and editor specializing in Napoleonic warfare, eastern European history, and the two World Wars. He has worked on numerous publications on all aspects of military history. Jeremy Black MBE, Established Chair of History at Exeter University, has over 150 published works to his name.

This book is chock full of mistakes and historical inaccuracies regarding weapons and uniforms. I'll use three examples to illustrate my point. Page 126 a German 242nd lieutenant is described as wearing a black peaked cap which he clearly is not. Page 116 an SS soldier is described as wearing a camouflaged smock when he is clearly wearing the late war two piece pea dot camo uniform. Page 95 U.S. paratrooper described as wearing a one piece camouflage jungle suit when he is in fact wearing the standard two piece airborne uniform. This book may be of use for a child or a novice in military history. Not for the serious collector.

Excellent book for history buff. A few uniforms missing but details are very good. Company puts out some very good uniform books.

thanks

Great book, will be getting the others in the series

I have all the other volumes of this series . The book is well done for the information in it . I wish they could have done a little bit more on some of the lesser know armies in World War II

The book was as expected. The dust jacket had a small tear at the spine, which a new book should not have.

have not read, but book construction and paper quality appears above average. nice illustrations

Really good book...Great service Thank you
