I have been smiling ever since the UPS man dropped this off. I have wanted to say some of the things in this book to a boss before. Plus I learned a few phrases I have not heard before. I thought that it would be just another one of those small coloring book like the others. But this is a big book. The paper is thick good quality. With nice art work behind the words. There is hours of fun to do. Plus if you have been biting your tongue all day at work you can choose a page that is what you wish you could have said, sit down relax and color the page that you wish you could have said. I find it a great way to deal with stress. I usually come home cussing and complaining about how my day went. Now everyone is happy cause I have not yelled or cussed anyone out at home just because I was mad at someone or something else. It's more relaxed in the whole house hold cause there's not as much stress building up. I will post it when I am done coloring it as well.

This book is okay, it's a lot like the other Midnight sweary books I keep seeing, except this one is less exciting. The backgrounds are zentangle. With words photoshopped over the picture. There are 30 designs and it's single sided. Some of the phrases are kinda dumb, while some are mean and funny. This is not a book you want your kids to see!!! The backgrounds are all black, Be careful of getting your finger prints on them! This cover looks exactly like another sweary book....

Ok, so I'm a huge fan of these swear word adult coloring books. I love the midnight editions as well. I like getting them when they first come out because the price is more in my budget. This edition is

honestly the best that I have seen from this author. The words or I should say insults are hilarious. The pictures are also nice. One thing about getting a book when it is released is you have no idea what is inside because sadly they don't show any previews. Overall this is a great adult coloring book. The only issue I have is that it doesn't have perforated lines to remove the pages to color more easily.

I received this product at a discount in exchange for a honest review. I liked this book and thought it was really funny. There were a few pages where the phrase wasn't very funny or made a lot of sense but the coloring aspect of the book was pretty funny. The book has a link on the back of it to get some free coloring pages sent to you daily. It's a pretty nice little offer that they give you. The book had pretty good quality paper as well as a lot of sayings. I received this item really quickly and came exactly when it said it would be. I didn't like that the phrases weren't really hidden like they are in some of the coloring books. This book was good but I think it could have been a whole lot better had the pictures been a little more and extended all the way to the borders of the pages. Other than that I think it was a little funny at least some of them are but other than that I don't know if I would have purchased this at the full price. It's a funny book but it could have been better.

I never stopped coloring - at the risk of sounding like an obnoxious hipster, I was doing so as an adult "before it was cool". It's calming, relaxing, can be an opportunity for practicing mindfulness, and, quite frankly, can be incredibly fun (and - for me - is a creative outlet, as I really have no artistic ability in any other realm whatsoever). Now that there have been all these studies that say coloring as an adult is absolutely FANTASTIC for one's mental health (and, again, can be super fun - and a great opportunity to spend time with loved ones...young and old! - except maybe not so young if you're using THIS particular coloring book...*ahem*!), there's a boom in adult coloring books - both "serious" ones designed to help improve certain things (eg, creativity, anxiety, mindfulness, etc.), ones that simply exist, and fabulously wonderful ones that are on this earth to make it a better place by making us belly laugh from deep within. Okay - first off: regarding the quality of the product as a coloring book...FANTASTICAL COLORING BOOK! The paper isn't super thin, easily torn, or anything like that - it's quite thick (I could use my markers without fear of bleeding through!), actually, and only one side has been printed on, so, if you chose to, you could tear out one of the pages and hang it up somewhere or give it to someone after coloring it - which is wonderfully passive aggressive, but I don't like OR hate anyone enough to waste this amazing book on them, so

all the pages are staying with me - but I'll take the phrases, and use them as much as humanly possible. The pictures (ie, quality of the drawings) are just lovely. I LOVE the fact that this is available as a "midnight edition", and the three that I own of this series are all the midnight version - I muuuuuuuch prefer the black background (I just really, really like the way it looks), but I find it very hard to find books that have black backgrounds. Of course there is the normal, white background version available as well, which I'm sure many people want, so that's a great option as well, I'm sure. Now to the phrases...HILARIOUS and WHIMSICAL - which isn't a word I would normally associate with such vulgarity, but it absolutely fits. I have a mouth like an ex-sailing trucker with Tourette's, and I have a special place in my heart (and vocabulary) for..."colorful" inappropriate phrases, but the ones in this book (and the others) crack me up, blow my mind, and make me excited to insult someone. Just amazing. I don't know who comes up with this stuff, but I want to be their friend, because their mind is warped, and it's fantastic. Based on the price; its value as a coloring book; its value as an "educational tool" (ie, expanding one repertoire of insults and retorts), mental health aid, hobby, creative outlet, general fun thing to do, and about a million other things; and the fact that its one of the few coloring book series I've seen that have so many options (ie, different styles without varying TOO much from the original concept), I can't recommend any one of the three I own enough (and, probably, the others from this author/company - though I can't guarantee them). So, I agree - (ahem) that stress...go buy this book (and some coloring supplies if you need) already, and get to hitting your that (ahem). Full disclosure: I received this product at a discount in exchange for a fair and unbiased review. All opinions expressed are 100% honest and my own.
