Experiences Of Gold Hunters In Alaska

Synopsis

Charles Margeson's work is regarded not only as a first-rate retelling of genuine Alaskan adventure but it is also considered as being the definitive narrative of the Copper River and Valdez phase of the 1898 Klondike Gold Rush. In these leaflets, he clearly details the events leading to the exploration of a great portion of central Alaska. This book did not gain the wide distribution or popularity which a book of this caliber would normally have received due to most of the copies of the book being destroyed in a warehouse disaster prior to distribution. Contents: I. How I Came to Go to Alaska , II. Starting for Alaska . III. Setting Sail on the Great Pacific IV. Starting over the Glacier V. The Great Snowstorm VI. Out of Wood on the Summit of the Glacier VII. Descending the Glacier VIII. Our First Bear Hunt IX. Building Boats on the Klutina X. Our First Prospecting Experience XI. Customer Reviews

A very interesting book, have not finished it yet but it is keeping my attention so that says ,a lot for a "history" book

This book is a true story full of real life adventures. I could hardly put it down, didn't want it to end, and gaped in wonder many times at what I was reading while trying to imagine how these gold seekers had struggled and endured. Absolutely LOVE this book. It would also be very fun to read in a book group.
