Ghost Hunters: True Stories From The World's Most Famous Demonologists

Synopsis

Ghosts know no season, respect no boundaries, and offer no mercy. Ed and Lorraine Warren, the world's most famous and respected demonologists, have devoted decades to exploring, authenticating, and conclusively documenting countless cases of otherworldly phenomena. Bestselling books and hit motion pictures, including *The Amityville Horror*, *A Haunting in Connecticut*, *The Conjuring*, and *Annabelle*, have been inspired by the Warrens' extraordinary real-life experiences with the supernatural. From the grounds of the United States military academy at West Point, New York to the backwoods of Tennessee, *Ghost Hunters* chronicles their first-hand confrontations with the unknown, the unholy, and the unspeakable. Here are the accounts of teenage girls who trifled with Satanism and séances, only to fall victim to the most horrifying of spirits... A village terrorized by a murderous, unstoppable force too evil to be anything but Hell-born... A family's home besieged by the relentless, destructive fury of poltergeists... The real facts behind the house of horrors in Amityville. In all, fourteen terrifying tales... all the more spine-tingling because they're true!

I love reading the case files of Ed & Lorraine Warren! The first one I read was "The Demonologist", which I had years ago when I was in school. I was fascinated with the tales in there and it was where I was first introduced to "Annabelle." These new editions are much better than the versions I had in the past, with cleaner print, easier on the eyes. Several have photos that are much more clear than some of the previous editions. I am so glad these books are back in print, and in a

pleasant, matching collection. Be sure to get all of them, and be ready for many chilling nights reading the spooky stories that will give you lots of restless sleep. :)

Very well written book--I was afraid it would be cheesy by the title---but have heard reputation of this couple and they are very respectable people. They dedicated their lives to help people with actual problems and have paid the price on earth for this work. This couple is sincere-& did not start this as cheesy T.V. show to make quick and easy money. They were the real deal. They are deep in their devotion to God and gave up a lot to help other. I read the book in a day & 1/2---I plan to read to read all the books written by this gracious couple and about them. My niece has a small part in both Conjuring movies as the couples daughter. That got me interested in this---and I am very spiritual and am now reading a second book written about them.

I became way more pleased in the stories and outcome of this book as I wasn't impressed with the first one. This book gave me what I was looking for...personal experiences of the Warrens. The first book gave historical background of their favorite state and stories from others, instead of their own investigations. I was so disappointed with the first book, it took three days to finish it, however, I was so wrapped up in this collection, it took only a few hours!! I would definitely recommend this book to those interested in the works of the Warrens!!!

The lovely couple offered a look into a life of ethical, disciplined work. They took their work very seriously and should be respected for the work, the interaction, and the results. I came away with new respect for them and hope that you will, too. They did not seek out fame or fortune, but rather to inform and educate on a myriad of subjects. Hats off to them and their lifetime of work that few would choose to take on, I think. Still, they did this and obtained results and helped so very many people. They were a true Godsend.

I have to say that this book was enlightening, informational, interesting and captivating all at the same time. I have always loved the Warrens, and am so happy to be reading their book series. On to volume 3.

I enjoyed reading this book, but I would advise that readers turn your phone off unless you have a strong heart. This book made it very easy to get engulfed in the stories and many times my husband seemed to know exactly when to call me. I would jump and my heart would pound.

As a long time fan of Ed and Lorraine Warren, I have come to expect several things from reading their books. Undeniable proof there is forces at work beyond our ever understanding in this world. And an affirmation that faith in The Lord will bring us through many things. GHOST HUNTERS provide several examples of their work and belief. Written perfectly in story telling design it answers many questions while transporting you into a world of mystery.

pretty cool, and pretty visual. I wish some of these stories were on video or in a movie, but I liked them nonetheless. a good read.
