From traditional skills to the newest techniques, Storey's Bulletins provide a foundation of earth-friendly information for the way you want to live today.

D. J. Young is a contributor for Storey Books titles including: Build A Pond. A Storey Country Wisdom Bulletin A-19

excellent product and service

Great little pamphlet to help you learn where to start researching how to build a pond.

This is just for some help in what you might want for a large game pond and is just what I was looking for but for people with no background in anything like this you are going to need to get some help from someone who knows what to do and certain laws and codes for your area.

A bit more pond than I wanted. Great if you want to put an old fashioned pond on large piece of property. Not the backyard pond I was going for.

Not sure if we'll build a pond, but I did learn a lot. I may pass the book along to one of our rancher neighbors.

For a beginner like me, this is good enough to use to help me decide whether to build a pond. I only need something small with a water circulator, so much of this is too much info for me. If I had a book that addressed more variety, it'd be better. Anyway, I feel like it was over-priced for the size, and definitely needs updating.

Hey!! don't know much about building ponds, and I didn't even really buy this book for myself. However, I do find the book to be filled with reliable and important information. Do I think this 32 page book can give me all the information I might need to actually build a pond? No. Of course not. But it's a starting point, and a pretty good one, too. For the small price, I think it's worth it. But I do suggest you get some further information before undertaking such a serious operation such as building a pond. For that matter, I wouldn't suggest taking that on without at least consulting an expert, if not having them build it for you. Especially if this is your first time building a pond. One thing to know, there are a lot of pictures. Unfortunately, they aren't as useful as they could be, as they are small and in black and white. Changing these to color would help immensely. Anyway, hope this helps all you potential customers out there. Have a great day, and happy reading! Luv ya, Tashi :)

We were curious about some of the things we'd need to consider if we were to make our own 'duck and fishing' pond. This pamphlet touched on the basics, & we're happy with it.
