Cash In The Wind: How To Build A Wind Farm With Skystream And 442SR Wind Turbines For Home Power Energy Net Metering And Sell Electricity Back To The Grid

Synopsis

The power of wind is enormous. Tap into this incredible energy supply, using state of the art wind turbines, to generate electricity for sale to the Grid. Wind power, worldwide, has been the fastest growing installed clean energy power supply. Now you can Harvest your Wind Energy for Profit. How can you harvest this gold? How can you Cash-in the Wind? This eBook describes how to Build a Wind Farm, using Skystream and 442SR Wind turbines, to "mine" wind energy on your property safely, properly, and profitably. The wind industry has evolved over the last 30 years, and has emerged as a world-class industry, with remarkable growth. Wind Turbine Hardware has matured offering the industry reliability, safety, and long life in the field. Major utilities, and Independent Power Producers, have tapped into Large Wind Farms with Megawatt output. This eBook is written to assist in Small Wind Farms, suitable for your Home, Farm, Ranch, Business, and Commercial power needs from 500 to 20,000 kWh per month. Wind Farms, historically, been only the realm of Large Independent Power Producers. Now, with Today's high quality equipment, Wind Turbines are available to anyone with an electric bill, and a suitable wind resource. This eBook covers Small Wind Farms for Residential, Commercial, and Light Industrial power consumers, or Independent Power Producers. Wind Farms discussed in this eBook range from Monthly Energy Production from 500 to 20,000 Kilowatt-hours.

Book Information

File Size: 848 KB

Print Length: 63 pages

Simultaneous Device Usage: Unlimited

Publisher: Solardyne, LLC (April 11, 2014)

Publication Date: April 11, 2014

Sold by: Digital Services LLC

Language: English

ASIN: B00JND0V6I

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Enabled

Lending: Not Enabled

Screen Reader: Supported

Enhanced Typesetting: Enabled
