Customer Reviews

So far from what ive read this luciferian book called a bible is one of the best ones ive read it has all kinds of luciferian teachings and pictures and you can learn alot.I recomend this to who ever wants to learn about the luciferian faith, but make sure to search for more on luciferian religion cause this book doesnt exsplain everything and path of luciferianism.remember theres many types jest like with satanism.

the beginning was pretty difficult to understand but towards the middle was pretty good. I wanted to expand my knowledge on Satanism and this book is recommended to start from. I am halfway through and I like it. it explains some exercises and the different "satans" from different religions. this book is really informative hence the rating. so not that bad.

Great book and got here fast.

I lost this book when I moved recently I was right in the middle of it and loving it I'm definitely going to order another copy off I love the feel of the book I love the manner in which for the rights it could be a little bit deep sometimes but it hasn't very good satanic feel

Great Book for those new to Luciferian. However, it leans more towards Satanism than Luciferianism. Though still learn a lot and has some rituals inside.

this one of my Favorites by Mr ford i like his non Dogmatic approach as well as Non theistic don't get me wrong it certainly can Cater to both

As it says. It more of a resource tool of all the demons, and types of magick.
