ISO 22000:2005, Food Safety Management Systems - Requirements For Any Organization In The Food Chain

Synopsis

ISO 22000:2005 specifies requirements for a food safety management system where an organization in the food chain needs to demonstrate its ability to control food safety hazards in order to ensure that food is safe at the time of human consumption. It is applicable to all organizations, regardless of size, which are involved in any aspect of the food chain and want to implement systems that consistently provide safe products. The means of meeting any requirements of ISO 22000:2005 can be accomplished through the use of internal and/or external resources. ISO 22000:2005 specifies requirements to enable an organization: a) to plan, implement, operate, maintain and update a food safety management system aimed at providing products that, according to their intended use, are safe for the consumer, b) to demonstrate compliance with applicable statutory and regulatory food safety requirements, c) to evaluate and assess customer requirements and demonstrate conformity with those mutually agreed customer requirements that relate to food safety, in order to enhance customer satisfaction, d) to effectively communicate food safety issues to their suppliers, customers and relevant interested parties in the food chain, e) to ensure that the organization conforms to its stated food safety policy, f) to demonstrate such conformity to relevant interested parties, and g) to seek certification or registration of its food safety management system by an external organization, or make a self-assessment or self-declaration of conformity to ISO 22000:2005.

Book Information

Paperback: 42 pages

Publisher: Multiple. Distributed through American National Standards Institute (ANSI) (August 23, 2007)

Language: English

ASIN: B000XYSLN6

Product Dimensions: 8.2 x 0.1 x 10.5 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #2,302,960 in Books (See Top 100 in Books) #22 in Books > Engineering & Transportation > Engineering > Reference > American National Standards Institute (ANSI)

Publications #408865 in Books > Textbooks

Customer Reviews

The ISO 22000 product is as advertised, a thorough description of the requirements of Food Safety

Management Systems.
