Make It Up: The Essential Guide To DIY Makeup And Skin Care

Synopsis

Ever think of making your own beauty products- handmade, high performance, healthy alternatives to just about every chemical laden product you currently put on your face and body? It's easier than you think! In *Make It Up* author Marie Rayma shares the recipes she has developed through years of trial, error, and testing to come up with the very best. This is real makeup and skincare: bright lipsticks, quality mineral powders, long-wearing eyeliners, and masks and cleansers that yield results. Rayma walks you through natural ingredients available online or at health food stores. These awesome oils, butters, clays, and minerals will replace the petroleum products, artificial colors, and lab-created mystery fragrances that have untold effects on our bodies. Products can be tailored for individual needs-from swapping out ingredients not suitable for sensitive skin to whipping up the perfect colors suited for any complexion. With easy-to-follow instruction, *Make It Up* provides more than 40 essential cosmetics and skin care projects so you can make just what you want, when you need it.

Marie Rayma is a graphic designer and creator of HumblebeeAndMe.com, the go-to place for real DIY make-up that works. Her writing has appeared on GoodHousekeeping.com, WomansDay.com, and saje.ca. She lives in Calgary, AB, where she spends her days making messes in the kitchen and taking pictures of them.

I love Marie Rayma! I've followed her blog for years and have made many of her recipes, all with

great results. I also follow her on her You Tube channel. She is a wealth of information and I have learned so much from her. Plus, she's a hoot to watch! I couldn't wait to get my hands on her book, and it doesn't disappoint! I'm in the process of moving, but as soon as I have all my supplies set up, I will be diving into her recipes. I'm pretty excited to get started. Great job, Marie!

I have been waiting for weeks for this to come out and it's EVERYTHING I thought it would be!!! I love Marie's blog and was so excited that she had written a book with recipes that have never been on the blog. I'm placing my order now for the ingredients I need to make these recipes. Thanks Marie!

I've followed the author's blog for many years, enjoying her more natural approach to homemade cosmetics and I equally enjoyed this book. It's a great guide for both the new cosmetic diy-er and the more experienced. A comprehensive list of recommended ingredients is part of the introduction and includes an explanation regarding the value of these key ingredients. Not only does she author provide loads of simple recipes to follow, but variations and substitutions for more options. There is a section dedicated to the basics of cosmetic chemistry for the at-home maker. I've made several goodies from this book and my skin feels great!

Omg, recd this gorgeous(!) book on the heels of xmas and right before NY Eve so I've barely gotten a chance to flip thru it. From what I've seen it is beautifully written and photographed AND very easy to follow recipes and directions. Hopefully I've enough in my stash to do some concocting and testing today. Looks wonderful and I know this book will be a favorite go-to for a long, long time. Thanks Marie!!

Excited to try some of these recipes! I have made many of Marie's products and find her instructions easy to follow and most ingredients readily available. I appreciate all the research she has done to bring us DYIers great products.

Yes, I can find most of the recipes on Marie's blog, but I personally don't mind the book. The print is amazing, easy on my eyes and great quality. I love the fact that all of the recipes in this book have colorful pictures. Easy to follow/understand. I've been looking for a book that highlighted mineral makeup crafting, so this one is a great option. Between reading the book and watching Marie's video, I am all set to create my own cosmetic and skincare. Way cheaper than buying brand name

cosmetics or skincare that most of them irritated my skin. I am looking forward to reading more books from Marie.

This is such a well-done book. It is full of simple, gorgeous recipes. I really appreciate the fact that they have all been tested thoroughly by the master herself, Marie Rayma. It's so nice knowing I can trust each recipe to work beautifully, provided I don't mess it up. It's also a lovely read. I grab it when I'm ready to wind down and just ooooh and aaaah over every page.

I've been following Marie's work for a while now and I couldn't wait for the release of this book! It is a must have! If you want real stuff and not games you should get one! I learned how to make real mascara, eyeliner, lipsticks, face powders, face creams, lotions, tinted lip balms, serums! I stopped buying cosmetics and all thanks to her website and now this book. Her recipes WORK. You have no idea how many times I would find a recipe that the creator behind it would swear by, and in the end with all my experience in making cosmetics I would get creams that would leave my skin irritated or oily, lipsticks that would be hard as pencils, mascaras that would give me raccoon eyes. Marie's recipes are easy to understand and follow. I love her approach to every ingredient, she makes sure that you understand their real properties and that helps when you want to create your own recipes. I hope she doesn't stop and continues her work. Thank you for knowledge you are sharing with us!!!!
