Customer Reviews

Sometimes it's just plain fun at someone else's expense. Especially when the only thing hurt is somebody's pride! I've always loved looking at text fails. Even the ones that make you groan with second-hand embarrassment. These are great.

Great way to relieve some stress. Hysterically funny and a good lesson on being very careful what you text to whom...:) These are pretty funny and if you need a laugh I would recommend getting this..

These are hilarious!!! Autocorrect sure does change things around. Every time I read these I start crying I'm laughing so hard.

It's not the best or the worst I don't like it that much so yah lol what am I doing

This book was ok and there were some funny things in here but it was kind of the same stuff over and over again I don't really think it deserves 4 or 5 stars 3 is enough

I am a sucker for text fails. I have never come across a better collection than the ones Chris Chappelle put together in this book. These truly are the best text fails I have ever read. You won't be disappointed.

Good book, shorter than expected. some of them were hilarious and others were kinda boring. Needed laugh today so glad I read it.

Need a laugh or to take a break during a stressful day this book is perfect. Really funny and fast read
