some good ideas but it's not that great.

Great,easy recipes!

my young adult son loves it. good recipes for a single guy

Easy to follow recipes and some very unique ones as well

I like the recipes in this book don't get me wrong but I was expecting it to be pretty simple with few ingredients.

Great Birthday present for our Grandchild.

Very cleverly written and many great recipes. I think the Lazy Lasagna for 1 is brilliant. I will admit that some of the recipes are more like two servings even though it says one in the book, but I almost like that better as I can take it to work the next day. I'm not a big fish eater, but even some of those look tempting so I will probably try them as well. I also like that each recipe doesn't have hundreds of ingredients that you need to purchase from some obscure store and they cost hundreds of dollars. Regular ingredients with easy to follow directions. I think it's one of the best cookbooks I've spent my money on. Highly recommended!

This cookbook is well-written, clever, informative and thorough - explaining technique, equipment and basic supplies before delving into the recipes. I wish it had pictures - I think my sons would be more apt to use it if there were more illustrations to go along with the recipes. They won't have any idea if they're even close to what the expected outcome is without them.
