Customer Reviews

There's a whole lot of keto-centric cookbooks flooding the market, written by authors hoping to cash in on this effective weight loss trend. Unfortunately, rewriting high carb recipes to sort-of-be low carb does not a ketogenic cookbook make! Even worse, when cookbooks like this one feature recipes that call for ingredients that are antithetical to a low carb regimen, sugar, bread crumbs, flour, etc, it becomes a waste of time money--- now, you're spending time and effort low carving your brand new "low carb" cookbook! Not a great purchase, in my opinion. Nevertheless, there are some good

recipes in this compilation-- just add up your counts yourself, for accuracy!

Helpful for low carb eating

If you are following the keto diet stay away! The recipes call for ingredients like breadcrumbs and white bread which aren't ketogenic. Such a bait and switch.

Lots of great recipes.
