## Customer Reviews

Rick Beech is an origami expert who has brought his folding skills to the art of the napkin, combining both professional expertise with original creative flair. Rick has taught hundreds of workshops and has worked in film and television. In addition to all the classic folds, Rick has created for this book a selection of innovative ideas to suit a variety of styles, design themes and table concepts. His other books include Mastering the Art of Origami and Great Origami Projects (both Southwater).

Got it for Terri Jay and she caught on fairly quick. Then she said the directions could be better. She said napkins that look like an airplane would be more fun. Napkin planes were flying all over the place. We decided to stay with the sail boat napkins cz after dinner we take a bath together. It is a very good book..

This book was a present for 7 - 12 year old children. They loved it! And it really works. The instructions are easy to follow, the napkins come out just as on the photos. Folding napkins can be tricky: First you learn it, and one thinks now they have it down pat. But a year later, when needed again, the exact steps are forgotten! This is a great book, both first-timers and for refreshing the

memory. The kids, who got this book, were busy for an hour - and surprised us all with a festive table of beautifully folded napkins. P.S.: Tip - it works best with generously sized cloth napkins, slightly starched.

My granddaughter and I had so much fun folding napkins as I remember my mother doing for special occasions. This book is a great, with easy to follow directions (my 10 yr. old granddaughter followed them easily). This just takes you back in time, when everyone folded napkins in special shapes for those special occasions. Great addition

Very usable. Most all of the really nice folded designs can only be done on cotton or linen napkins. Or paper. Polyester or microfiber does not have the stiffness or foldability of the cotton or linen. Some simple designs can employ the synthetic fabrics, however. You need large paper napkins that are not too soft to do the paper designs. Here is where you can get into color. Some are very simple and elegant...some are more complex. Something for everyone.

My husband and I visited a bed and breakfast and they had the napkins so beautifully folded. We entertain quite a bit and thought it would be fun and different to do this at home. This book is fantastic...with 100 different variations. Many of them are ones I'd do. I also made the mistake of ordering "Decorative Napkin Folding for Beginners" by Oppenheimer and Epstein. I didn't care for that book at all...didn't offer many varieties and theirs seemed a little corny...not the simple, elegant look I was going for.

I got this in prep for a Bridal Shower but after looking through the beautiful photos and illustrations I can tell I'll use it for other sit down meals too. I love to set a pretty table at Thanksgiving and other holidays and there are a ton of choices with good instruction and advice. Ranging from easy to elaborate folds using cloth and paper napkins, all the designs bring an extra something to the table.

I bought this book for a friend and ordered another copy for myself as soon as I received it! My friend LOVED hers as well. She immediately put it to use. Her son brought a new girlfriend home for dinner. My friend used the heart fold and thoroughly impressed them both. The folds are easy to accomplish and will make your table look like a party!

Was a gift for my son who fell in love with folding napkins after going to Disney a couple of years

ago. Directions and images are great and easy to follow.
