Not sure if I should give this 5 stars or 1 star. It was extremely helpful if you are completely clueless about paralegals or the law. It explains everything so well even a 5th grader would get it. So that's why I gave it a 5. But if you already have knowledge, even basic knowledge, this book will make you want I dig your eyes out with a spoon. It's that basic. So whichever way you want!

This text book was the one needed for a class.

Awesome book. Thank you b

I am currently taking online paralegal studies. I'm a newbie and prefer the old school way, reading the actual book for a better understanding. This book is on point and gives me a clear understanding, plus I like to highlight certain passages.

Very good.

I have the kindle edition. It does not go past chapter 12. I wish I had realized this was an issue before this. I don't know what I am going to do for the remainder of the course. :-(

Using this as a textbook for a course. Really really well detailed and up-to-date for a survey course.

Excellent book. Lots of extra stuff in this book. It is helping me and my education and career as a Paralegal.
