I gave this as a gift to my teenage cousin for christmas. He was certain it was a gag gift, but I have heard he has pulled it out as a reference in his few attempts to keep himself fed. A great basic step by step cookbook for someone who is truly clueless about cooking.

Great book for an amateur cook such as myself...very well written and with a broad array of easy to prepare recipes...I would recommend this book for anyone who needs brushing up on the basics as well as entry level cooks like myself.

Learning to cook is a breeze with this book!

I bought this for my sister who is notorious for being a hopeless cooking case. It is simple, easy to understand and informative. I am confident it will finally get her on the track to putting meals on the table!

Got this as a gift for my future daughter in law. I got cooking for dummies years ago and loved it because the receipies are easy to follow also provides great tips on how to set up your kitchen.

Easy to understand. A wonderful reference book.

If I remember right, I got it early. I haven't looked through it, as it is a gift. But, I'm sure the receiver will love it!

good for beginners
